

IN THE SPECIFICATION

Please amend the specification as follows:

Please amend paragraph [0028] on page 7, lines 21-25, as follows:

[0028] *Figure 4* introduces texture maps 401 and 402, which are used as a complex background to some dynamically updated text fields at 403 and 404. At ~~403~~404, the text scrolls continuously, giving high and low values of stocks and shares. At ~~404~~403, the text is static, but has a dynamic lighting effect that changes smoothly over time.
